COURSE OVERVIEWS

Carbon Emissions Reporting

Gain a practical understanding of how to meet commitments respecting your local government's obligations under the BC Climate Action Charter. [More Details](#)

Budgeting: Mastering the Basics

Based on the BOOT CAMP course, this workshop covers all aspects of budgeting from business planning, techniques for developing estimates, capital budgeting and presenting the budget to Council and the public. [More Details](#)

Debt Financing for Local Governments in BC

Gain a good understanding of the complete borrowing process from the initial decision making process to examining internal borrowing options and debt management issues, to following through with the legal/legislated requirements, to administering debt on an ongoing basis. [More Details](#)

Preparing Audit Working Papers: A Primer for Local Government Staff

Auditors require that municipal staff prepare "working papers" prior to their annual audit. Many staff have never been trained to do this effectively and may prepare too much or too little information. This course is an opportunity to learn the most efficient and effective ways to provide exactly what is needed. [More Details](#)

HST for Local Governments in BC

This course will not only give participants the information they need to know when charging and paying HST, calculating rebates, and determining exempt services but will also provide the background so that they can explain the concepts and the impacts to their Councils and Managers. [More Details](#)

PSAB Update: Financial Reporting for Members in the Public Sector

Led by Tim Beauchamp, this morning half-day seminar will provide up-to-date information on the recent releases of the Public Sector Accounting Board and the current proposals. This course is being offered jointly with ICABC. GFOABC members can register at the CA member rate. [More Details](#)

PSAB Update: Government Organization Workshop

In the afternoon seminar, Tim Beauchamp will provide an overview of public sector reporting to those responsible for, or who use the financial statements of government organizations. This course is being offered jointly with ICABC. GFOABC members can register at the CA member rate. [More Details](#)
